Wordpad

## PROFILE

Recently, postgraduate students have sought expertise in the software development field with a focus on web development and a foundational understanding of Python and JavaScript. I'm excited to add my enthusiasm for excellence and dedication to outcomes to a forward-thinking company and contribute to an innovative firm.

## PROJECTS

### PERSONAL PORTFOLIO WEBSITE

- Designed and developed a personal website to show case my skills and project using HTML, CSS & JavaScript

### TO-DO LIST APPLICATION

- Created a simple To - Do list application using JavaScript that allows users to add, edit & delete task. It is a simple website that allow the user to keep update their daily activity.

### AMAZONE CLONE

- Created a simple clone of an amazon like product .card using HTML, CSS and JavaScript. Add simple icons like title, nav-bar, add to card button product list etc.
